

BETTER MAN IN ME (June 6)

(V1)

She said wrong and I said right
She said retreat I stayed to fight
Now I'm sleepin' in the truck
It's hot as heck just my luck

She goes to church I go for trout
She has faith when I have doubt
Her mamma said I told you so
But there's something she don't know

There's a better man inside me
Just waitin' to be unleashed

(CHORUS)

Come and set free
This man who's stuck inside of me
He needs a little pushin'
And a whole lot of lovin'
Cause I'm so prideful and so dang stubborn
Come and let him out
Girl never doubt
I need you I love you and I really wanna be
The better man in me
Do you still believe

(V2)

I drink whiskey she sips wine
People say her love is blind
But we know opposites attract
So come on baby take me back

Cause there's a better man inside me
Just waitin' to be unleashed
