

Better Man (July 10 – with notes)

I'm trying hard to get it right  
But I'm a fool come Friday night  
I know my habits bother you (You say my habits bother you)  
I'm doing all that I can do (Shape on up or boy we're through)

I like my beer, I like my friends (I like my whiskey and my friends) <Maybe makes him sounds a little tougher>

I know you want it all to end  
Your mama said, "I told you so"  
There's something she don't know

There's a better man inside me  
Just a'waitin to be unleashed

Come and set'em free  
The man who's stuck inside of me  
Need a little pushin and a  
Whole lotta lovin  
Like a country mule  
He's so dang stubborn (I'm so dang stubborn) <Is the better man or the current man stubborn? I think it's the current man. Either way is probably fine>  
But you can bring him out  
Girl don't ever doubt  
I need you, I love you, I really wanna be  
The better man in me  
There's a better man in me ( really like the "Do you still believe") line

Sunday you drag me off the church  
The preacher says don't drink or curse  
From then til Thursday I'm a saint  
But Friday comes and then I ain't

My past is checkered as my shirt  
I know you're tired of getting hurt  
Don't throw my clothes out on the lawn  
I'm comin home where I belong (Cuz girl you've known it all along) <I'm not sure we've said she threw him out>

There's a better man inside me  
Just a'waitin to be unleashed
